

Reconciliation Tools

Simplify and enhance your bank reconciliation process with intuitive tools

Encore
Business Solutions

Account Reconciler and Auto Reconciler dramatically simplifies the reconciliation process for companies allowing users to balance General Ledger accounts and checkbooks easily.

ACCOUNT RECONCILER - GL transactions are displayed in a window allowing users to easily cross reference the transactions in GP for reconciliation.

Simplify the reconciliation process.

- Select a Microsoft Dynamics® GP checkbook, identify originating currency and translate currency into the functional checkbook currency.
- Match and clear a high volume of transactions.
- All transactions posted through the GL account are available for reconciliation.

Easy-to-use, navigate and view data.

- Familiar interface for Microsoft Dynamics GP users makes it easier for them to navigate.
- Change your filter view to display only cleared or un-cleared items.

Improve search capabilities.

- Filter transactions by selecting from a list of criteria including Date, Source Doc., Journal ID and Document Number.
- Click on the column headers to sort transactions by column.

Increase reporting and analysis capabilities.

- Identify how long it takes for checks or deposits to clear the bank using the **Average Days to Clear Analysis** window.
- Multiple reports are available for printing such as Detail, Summary, Adjustments, Deposits in Transit, Outstanding Checks, Deposits and Disbursements and Reconciled Reports.
- Zoom to the original transaction from the Account Reconciler window.

- *The date the transaction clears the bank can be entered allowing further analysis.*

The screenshot shows the 'Account Reconciler' window. At the top, there are fields for 'Chequebook ID' (FIRST BANK), 'Account Number' (000-1100-00), 'Currency ID' (Z-US\$), and 'Statement Date' (4/12/2017). A 'Default Cleared Date' field is set to 4/10/2017. Below these are filter options for Date, Source Doc., Journal ID, and Document No. The main table lists transactions with columns for Date, Jnl No., Reference, Source, Document Number, Currency ID, Amount, and Cleared Date. The 'Cleared Date' column is highlighted with a red circle. At the bottom, there is a summary section with 'Bank Statement' (\$0.00), 'Book Balance' (\$469,614.65), 'Adjusted Book Balance' (\$469,608.24), and 'Adjusted Difference' (\$395,421.00).

Date	Jnl No.	Reference	Source	Document Number	Currency ID	Amount	Cleared Date
1/13/2014	482	Comnet Enterprises, Inc	PMPAY	15000	Z-US\$	(\$5,000.00)	4/10/2017
1/13/2014	618	International Wire	PMPAY	112002	Z-US\$	(\$21,918.15)	0/0/0000

1/15/2014	14	Bank Transaction Entry	CMTRX	DAJ000000006	Z-US\$	(\$1,847.50)	0/0/0000
1/15/2014	15	Bank Transaction Entry	CMTRX	DAJ000000007	Z-US\$	(\$10,000.00)	0/0/0000
1/15/2014	16	Bank Transaction Entry	CMTRX	DAJ000000008	Z-US\$	(\$25.00)	0/0/0000

Solutions for Microsoft Dynamics GP

Reconciliation Tools

Simplify and enhance your bank reconciliation process with intuitive tools

AUTO RECONCILER - Import transactions from an external file source to automatically match bank transactions with GP checkbook transactions. Compatible with both Encore's Account Reconciler and Microsoft Dynamics GP Bank Reconciliation, Auto Reconciler especially appeals to companies with a large volume of bank transactions.

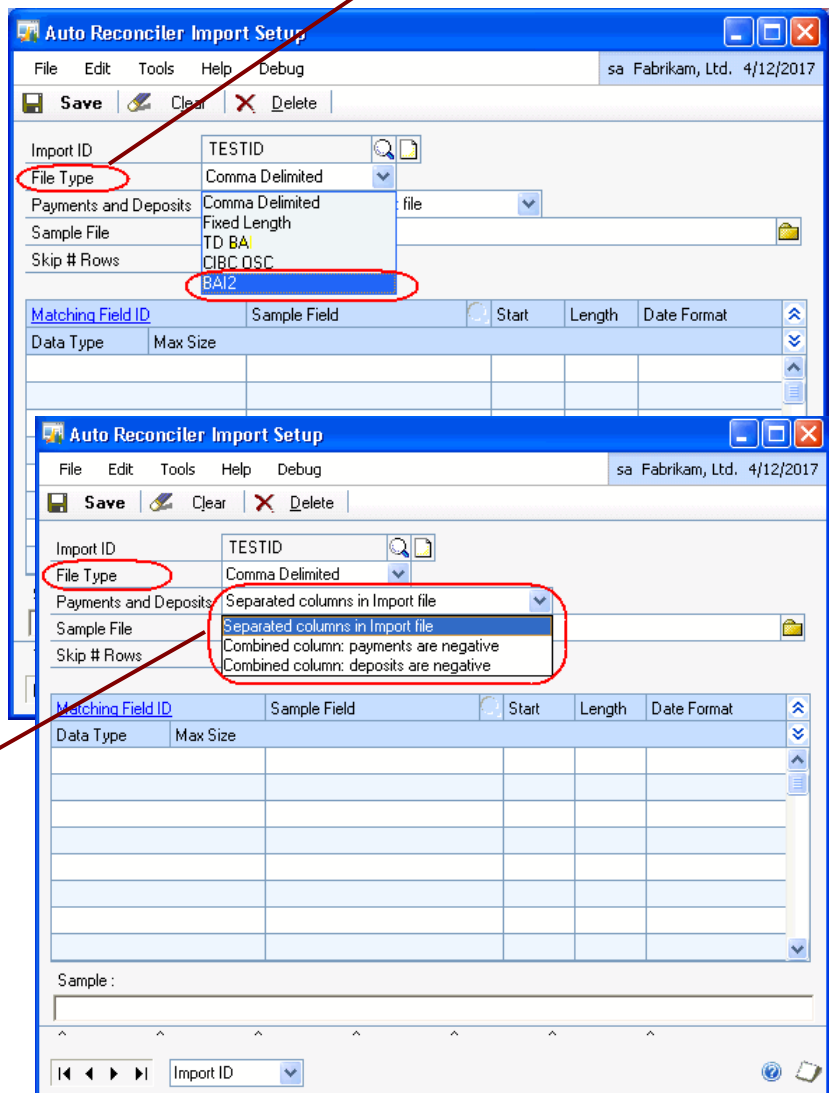

Reduce data entry and tedious month end tasks to close more quickly.

- Define and import preferred file format type (i.e. comma delimited, fixed length) to use in the matching process.
- Automatically match payments and deposits from your bank eliminating the time consuming task of manually matching entries against the bank statement.

Save time, money and control reporting requirements.

- Manage large volumes of bank transactions.
- Print detailed reports showing all transactions that are Cleared and Not Cleared.

- Import the bank statement file in the required format including comma delimited, fixed length, BAI2, and more.

- From the **Payments and Deposits** dropdown list in the **Auto Reconciler Import Setup** window select from the options available—**Separated Columns** in Import file, **Combined Column: payments are negative** or **Combined Column: deposits are**

Encore Business Solutions: Experience, Quality and Trust Since 1990
