NFR Keys

Are you aware that as an Encore Partner you are entitled to NFR Encore Product registration keys? Use Recurring Contract Billing in-house to manage your software renewals; Advanced SmartList to extend the functionality of SmartList; Project Tracking w/Advanced Analytics to track and report on your marketing campaigns or inquire on some of our other products that are available to you at no charge to make your life a little bit less hectic during these busy times.

Encore Turns 20!

Happy New Year Natalie!

Encore Business Solutions proudly enters its twentieth year of business marking two decades in the technology industry - an industry that has seen much growth and change in those 20 years. Encore originally started in 1990 with two people working part time. In twenty years, the company has grown to a \$5.6M company with 35 employees and has received accolades within the Microsoft and Manitoba business community. CRG Changer for Encore Business Solutions

Did you know that CRG Changer can update data in Encore Business Solutions products? In fact, Changer efficiently enables the modification and consolidation of data in both Microsoft Dynamics GP and Project Tracking with Advanced Analytics, Recurring Contract Billing, Enhanced Customer Statement, Auto Reconciler and GST/PST Distribution. In addition to these Encore products, Changer, which is certified for Microsoft Dynamic GP, can update data from various Microsoft Dynamics GP modules and other third party applications. For more details, click [here](#).

Planning has Begun for our Favorite Event of the Year, Convergence2010

Convergence will be here before you know it. Encore will be at Convergence in Atlanta, Georgia this coming April as an **Alumni Sponsor** and Exhibitor.

We want to meet you there! There is nothing like good old fashioned face to face meeting with fellow partners to introduce you to our products, services and people.

Please send your v-card to [Tanya](#) so she can schedule a meeting at the conference.
