Encore Business Solutions Celebrates 20 Years of Innovation

WINNIPEG, MANITOBA, CANADA – January 4th, 2010 Encore Business Solutions proudly enters its twentieth year of business marking two decades in the technology industry - an industry that has seen much growth and change in those 20 years. Encore originally started in 1990 with two people working part time. In twenty years, the company has grown to a \$5.6M company with 35 employees and has received accolades within the Microsoft and Manitoba business community.

Since Encore's inception, the company has been involved with Great Plains Software which was then acquired by Microsoft in 2000 and renamed Microsoft Dynamics GP. Today, Encore has a special relationship with Microsoft. The company resells the Microsoft Dynamics Enterprise Resource Planning (ERP) systems of AX, GP and CRM. They also have developed their own products that work seamlessly with Microsoft Dynamics GP improving users' efficiencies. In addition, Encore has sold intellectual property to Microsoft and does contract work for them on a regular basis.

"Having worked in the technology industry for over twenty years myself, it is amazing to see the changes to both the industry and our business. The next evolution will be very interesting." states CEO, Brent Twist. COO, Ken Chartrand commented, "Twenty years is an accomplishment we are pleased to have achieved. We've grown our business based on a corporate culture that fosters learning, integrity, and fun. Along the way, we have built a successful organization that is a leader in its domain."

About Encore Business Solutions

Established in 1990, Encore Business Solutions Inc. is committed to helping organizations implement value-added technology and business management solutions such as Microsoft Dynamics GP, Microsoft Dynamics CRM and Microsoft Dynamics AX. As a Microsoft Gold Certified Partner, Encore is among the elite of Microsoft's business partners, earning their highest endorsement.

Built on experience, reputation and genuine commitment to customers and business partners, Encore's strength is in their ability to realize the client's full potential through new business applications, automation, integration and ongoing system reviews.
