Encore Business Solutions Expands Product Offering with Microsoft Dynamics® AX

WINNIPEG, MANITOBA, CANADA – MAY 27, 2009, Committed to providing innovative business solutions that support customer growth, **Encore Business Solutions**, a Microsoft® Gold Certified partner, announced expansion of their product and service offering with the addition of Microsoft Dynamics AX. Encore's extension into the Microsoft Dynamics AX market compliments their current Microsoft Dynamics practice by offering customers more options and greater flexibility with business management solutions.

Encore has been busy ensuring Microsoft Dynamics AX customers will receive the high levels of service and product knowledge that Encore has built their reputation on. In addition to the completion of the Microsoft Dynamics AX certification process, Encore has hired Robert Boulet, a Certified Management Accountant with several years of Microsoft Dynamics AX experience, as the Microsoft Dynamics AX Practice Lead.

"This is a very exciting time for Encore," states Sandy Bergman, Vice President, Sales. "Our goal is to help customers keep pace with technology and stay ahead of their competition with adaptable, integrated solutions. Extending our business practice into the Microsoft Dynamics AX market space allows us to further our contribution to the Microsoft community, but more importantly it reinforces our commitment to our existing clients. Some of our Microsoft Dynamics GP clients are forecasting aggressive growth and will face new challenges in their business. We'll be able to transition them to a solution that will accommodate their needs fully. We are thrilled to have Robert Boulet on board to help build Encore's presence and success in this market. His deep product knowledge and industry experience is a definite asset to this latest initiative."
