Manitoba Business Magazine names Encore as one of Manitoba's Fastest-Growing Companies in 2003

Winnipeg, Manitoba – March 6, 2003 — Encore Business Solutions Inc. was recognized as Manitoba's 11th Fastest-Growing Company by *Manitoba Business Magazine's* Annual Performance Survey. Encore has achieved a 156% growth over the past three years and made the list of Manitoba's 50 Fastest-Growing Companies for the fourth consecutive year.

"We are ecstatic to be on the list again this year and our growth and success could not have happened without our entire team working together as one," says Marc Labossiere, President of Encore Business Solutions.

Ranking of the companies was determined based on their percentage increase of overall gross income in the past three years. The companies on the annual ranking are significant players in the Manitoba provincial economy both in terms of total gross revenues and employment. Placing among those who strive for progression and drive technological innovation is an achievement all companies aspire.

Established in 1990 and with offices in Winnipeg, Saskatoon, Calgary, and Fargo, Encore Business Solutions Inc. offers a full range of financial and business management solutions. As an award-winning Microsoft® Gold Certified Business Solutions Partner, Encore implements and supports Microsoft® Business Solutions–Great Plains® and Microsoft Customer Relationship Management. As an authorized Solution Developer, Encore develops industry-specific software that extends the functionality of Microsoft Business Solutions products.
