Encore Business Solutions Releases Version 7.5

July 8, 2003 – Winnipeg, Manitoba, Canada – Encore Business Solutions is announcing the availability of version 7.5 for its Not-for-Profit and Government Series, Billing Series and Project Tracking Series. These upgraded solutions will provide a close integration with Microsoft Business Solutions – Great Plains V7.5 products.

Version 7.5 product releases include Interfund Management, Grant Management, Project Tracking, and Recurring Contract Billing for Great Plains. Future 7.5 releases will include Enhanced Customer Statement, Encumbrance Management, Control Account Management, GST/PST, and Electronic Bank Reconciliation.

Included in the already released 7.5 upgrades is the ability to support the Microsoft SQL Server Desktop database. The MSDE database is designed for companies with fewer concurrent users and less complex business needs and offers the benefit of a lower price point.

The Recurring Contract Billing 7.5 release includes functionality changes designed to improve transaction performance.

About Encore Business Solutions

At Encore Business Solutions Inc., we are committed to furthering your success through innovative business solutions. Since 1994, we've been developing, marketing and supporting applications specifically designed to integrate to Microsoft Business Solutions – Great Plains and Small Business Manager.

We deliver world-class, high quality products that satisfy the special reporting, budgetary, fundraising and business management needs of not-for-profit and government organizations. Encore has the knowledge and understanding of the unique demands of not-for-profit and government organizations, and our experience in developing solutions that meet those growing needs. In addition, Encore's Project Tracking Series and Billing Series offer powerful reporting and management capabilities that enable organizations to move towards their financial goals with confidence.

We believe in our customers, and our customers believe in us. During our long-term focus on delivering value-added solutions to our customers, Encore has evolved into a leading provider in the not-for-profit industry and an award-winning developer within the Microsoft Business Solutions community.
