

**WHY ITRAK?** EnviroWaste chose ITRAK to provide an easy-to-use mobile solution for managing and streamlining their health and safety operations, with the ability to collect, visualize, and analyze critical safety data all in one place. The ability to leverage deep insight into accurate health and safety processes was key to EnviroWaste's decision to choose ITRAK as their health and safety solution.

**WHY ITRAK?** Secure chose ITRAK to streamline the company's Health & Safety Management System. ITRAK provided Secure with the reporting tools and critical data insight necessary to assist their transition from a reactive safety culture, to a proactive and efficient safety culture. The intuitive and accessible mobile user interface for field workers and the ability to access clean and accurate data was paramount in choosing ITRAK.

**WHY ITRAK?** Interfor chose ITRAK to leverage the power of a QHSE solution that could increase efficiencies, eliminate bottlenecks and paper based processes, and better track corrective actions. ITRAK's intuitive and configurable layout has enabled Interfor to accurately and efficiently collect, standardize, and analyze their safety data across their organization. ITRAK's efficient form based process allows Interfor to integrate industry leading safety practices into all facets of their operations. The efficiency of a paper-less forms system was a key in Interfor's decision to utilize ITRAK.

**WHY ITRAK?** Scouts Canada chose ITRAK to assist in supporting safe programs and initiatives, by managing inspections, audits, and hazard identification. With easy access to critical safety data, reporting metrics, and KPI's, Scouts Canada uses ITRAK to manage all aspects of safety, and to support a strong safety culture with employees and volunteers across the country. The intuitiveness of ITRAK's highly configurable user interface was a deciding factor in Scouts Canada's choice to integrate ITRAK into their operations.

#### WHAT OUR CLIENTS ARE SAYING:

*"ITRAK has replaced our existing antiquated electronic system with an advanced product that is extremely powerful, configurable and mobile friendly for our field operations. We are extremely pleased with the reporting capabilities of the Power BI tool in conjunction with the ITRAK system."*

David Durda, EHS Coordinator  
Kelt Exploration

*"ITRAK and our BI tool provide the information capture, sharing and workflow capabilities we need to build a strong health and safety culture."*

David Bellmont, Manager of Operations  
Analytics, SECURE Energy Services

*"Prior to ITRAK, Cequence had been relying on paper filing, numerous spreadsheets, and emails to track incidents, training and competency, and other related HSE forms. After two years with ITRAK, there has been a measurable increase in record retention, tracking, and end process efficiencies. And having this all accessible on mobile devices enables us to be truly dynamic and fast moving."*

Michael Rakus - Health, Safety &  
Environment Manager at Cequence Energy
