

# Dynamics 365 Business Central | Helpful Resources and Links

If you would like to get a head start on your [Dynamics 365 Business Central](#) (D365BC) project be sure to check out the following self-learning resources. The predecessor to Dynamics 365 Business Central product was called Dynamics NAV.

## Know Your Dimensions

Dimensions help you track all the important KPIs without having an ever-expanding Chart of Accounts. To better understand how best to track and analyze your KPIs in your new D365BC solution, visit the following links:
