

## **SENIOR SOLUTION LEAD, DYNAMICS 365 FINANCE**

**JOB NUMBER: 20-D365FSC-FC02**

**Posting Date: October 6, 2020**

**Start:** Immediate

**Duration:** Permanent Full Time; Exempt

**Location:** Seattle /Pacific NW United States (Flexible / Remote)

**For Company Information visit [WWW.ENCOREBUSINESS.COM](http://WWW.ENCOREBUSINESS.COM)**

### **The Position**

As a Senior Solution Lead, you'll have the opportunity to put your specialized skills in operational finance to the test as a Lead Consultant. Equipped with a broad range of finance, management, interpersonal and technical skills, you recognize the need for accuracy, traceability, and compliance within systems. You comprehend the complexities of a client environment with ease, collaborate with subject matter experts and make solid recommendations to client stakeholders based on best practices.

The ideal candidate will have at least 8 years experience using Microsoft Dynamics AX or D365 or a similar enterprise resource planning (ERP) application in a Finance role. This individual is analytical, demonstrates professional and ethical conduct and has strong business acumen. Your attention to detail, passion for solving complex business problems with technology and collaborating with a team of great people contributes to a high degree of customer satisfaction and project success.

### **Key Areas of Responsibility**

- Participate in the discovery, analysis, design, and planning of software deployment.
- Work with clients to define business requirements, provide direction and assist in development of business processes.
- Implement and deploy Microsoft Dynamics AX / D365 Finance and Supply Chain software (design, configure, train, support).
- Understand user and system requirements; identify areas requiring customization.
- Follow prescribed implementation methodology; understand key activities and deliverables for projects.
- Document business requirements and functional specifications (Fit-Gap analysis and Solution Design Documentation).
- Work with application developers during design, development, and testing phases.
- Teach and mentor project / team resources who possess various skill levels.
- Manage and develop customer relationships and perceptions to achieve mutual goals.
- Assist in presales software demonstrations and related activities.

## Desired Skills & Competencies

- Bachelor's Degree and / or equivalent degree / experience; expert knowledge in financial business process analysis.
- Certified Public Accountant (CPA) preferred.
- Minimum 8 years' combined experience in operational finance and professional services with focus on consulting.
- Minimum 4 years' hands-on Dynamics AX /D365 Finance and Supply Chain experience; and / or experience with four or more full-life cycle implementations.
- Microsoft credentials in Finance; ideally D365 Finance and Supply Chain, Trade and Logistics, LCS, DevOps.
- Aptitude for learning and mastering new software applications; commitment to continuous learning and personal growth.
- Proficient in US GAAP.
- Project accounting and costing related to manufacturing environments.
- Influential in a team environment; readily shares knowledge and experience with others.
- Excellent communication and presentation skills that contribute to clear, concise expectation setting.
- Effective leader of people; understand adult learning practices and principles.
- Results oriented / self-directed ability to drive change in unstructured environment.
- Adept at managing multiple deadlines and rapidly changing priorities.
- Proven ability to take initiative and deliver outstanding performance.
- Willing and able to travel to client sites 30% of time.
- Valid driver's license and passport are required.
- Must be legally entitled to work in the United States.
- Must be fluent in English – both verbal and written.
