The Position

Encore is looking for an entry level software developer to join our fast-growing Microsoft Dynamics 365 Business Central practice. The role requires an individual with effective communication skills who confidently takes initiative with clients and team members. The team has a “no shortcuts” and “do the job right the first time” approach and the successful candidate would be expected to foster that ethos.

This position will appeal to candidates with a background or strong career interest in technology and software development. To excel in this position the successful candidate must be analytical, customer-focused and committed to meeting project timelines while collaborating with internal and external stakeholders.

Key Areas of Responsibility

- Develop modifications and additions to core Microsoft Dynamics 365 Business Central to fulfill customer requirements.
- Install and configure Dynamics NAV and Dynamics 365 Business Central both on premise and in the cloud.
- Administer Azure based services such as Azure SQL, Azure logic apps, Azure functions and blob storage.
- Provide Dynamics NAV and Dynamics 365 Business Central development and technical support to existing customers.
- Design and estimate effort required for customizations with consulting resources.
- Work on scope, design, and end user documentation.
- Create integrations to point solutions using a variety of technologies, SOAP, OData, Dataverse, MSMQ, JSON and XML
- Assist in presales demos and related activities.
- Improve and develop current team methodology and processes.

Desired Skills & Competencies

- Education in computing or software.
- Experience with a scripting or similar development language.

- Prior experience with C/AL or AL an advantage.
- Understanding of ERP solutions and Relational Database principles.
- Experience with source control such as GitHub and DevOps, software documentation and software lifecycle principals.
- Knowledge of Microsoft SQL Server, including how to configure, maintain and generate scripts.
- Knowledge of PowerShell.
- Self-motivated to keep up to date with new releases of products and learn new skills.
- Experience with Azure based services.
- Self-motivated with strong time management skills.
- Excellent communications skills including ability to present.
- Willing and able to travel; valid driver's license and passport are required.
- Must be legally entitled to work in Canada / the United States.
- Must be fluent in English – both verbal and written.

Please send your confidential résumé as a MS Word or PDF document to:
hr@encorebusiness.com, quoting the job number in the subject line of your email.

Furthering your success through the alignment of strategy, people, processes, and technology

We thank all applicants for their interest; however, only those candidates selected for subsequent interview will be contacted.
