The Position

As a Solution Lead, Finance, your broad range of finance experience and professional credentials furnish you with the knowledge, skills, and confidence to lead client stakeholders through the phases of an implementation of Microsoft D365 Finance & Supply Chain Management (formerly Dynamics AX). A minimum of 4 years hands-on experience using this application is required.

You have strong business acumen and a reputation for ethical conduct. Analytical, accuracy, compliance, traceability is part of your DNA. Along with a passion for solving complex business problems with technology, collaboration and teamwork comes naturally to you. You measure success with a high degree of client satisfaction at project completion.

Key Areas of Responsibility

- Participate in the discovery, analysis, design, and planning of software deployment.
- Work with clients to define business requirements, provide direction and assist in development of business processes.
- Implement and deploy Microsoft Dynamics AX / D365 Finance and Supply Chain software (design, configure, train, support).
- Understand user and system requirements; identify areas requiring customization.
- Follow prescribed implementation methodology; understand key activities and deliverables for projects.
- Document business requirements and functional specifications (Fit-Gap analysis and Solution Design Documentation).
- Work with application developers during design, development, and testing phases.
- Teach and mentor project / team resources who possess various skill levels.
- Manage and develop customer relationships and perceptions to achieve mutual goals.
- Assist in presales software demonstrations and related activities.

Desired Skills & Competencies

- Bachelor's Degree and / or equivalent degree / experience; expert knowledge in financial business process analysis.
- Certified Public Accountant (CPA) preferred.
- Minimum 4 years' combined experience in operational finance and professional services with focus on consulting.
- Minimum 4 years' hands-on Dynamics AX /D365 Finance and Supply Chain experience..
- Microsoft credentials in Finance; ideally D365 Finance and Supply Chain, Trade and Logistics, LCS, DevOps.
- Aptitude for learning and mastering new software applications; commitment to continuous learning and personal growth.
- Proficient in US GAAP.
- Project accounting and costing related to manufacturing environments.
- Fixed Assets accounting experience.
- Influential in a team environment; readily shares knowledge and experience with others.
- Excellent communication and presentation skills that contribute to clear, concise expectation setting.
- Effective leader of people; understand adult learning practices and principles.
- Results oriented / self-directed ability to drive change in unstructured environment.
- Adept at managing multiple deadlines and rapidly changing priorities.
- Proven ability to take initiative and deliver outstanding performance.
- Willing and able to travel to client sites 25% of time.
- Valid driver's license and passport are required.
- Must be fluent in English – both verbal and written.
