

# Microsoft Dynamics 365 Finance and Supply Chain Management, Developer Onboarding

## The Basics

Developer Onboarding training provides a detailed walkthrough of the onboarding process in Microsoft Dynamics 365 for Finance and Supply Chain Management for developers. The aim of the training is to provide a good understanding of the onboarding process for the developer and give them confidence to start with development in Dynamics 365 Finance and Supply Chain Management.

During this training, we will cover the basics of Microsoft Lifecycle Services, Microsoft Azure DevOps and development tools using Visual Studio. We will overview the key concepts and the topology of Dynamics 365 Finance and Supply Chain Management and the links between LCS, DevOps and Visual Studio, looking at how the applications communicate and collaborate together. We will also cover development standards and best practices.
