

What is Power BI?

Microsoft Power BI is a cloud-based business analytics service for visualizing data and sharing insights across your business to essentially help you become productive and creative with reports and analytics.

70% of organizations believe their data is not used to its fullest extent

Why Power BI? Transform Data to Insights:

How Encore Can Help

Whether you're a SMB or an Enterprise level business, we're here to help!

We can help you get licenses as well as connect you with our Power BI team to provide best practices based on our experience.

Encore Power BI Team:

Experts in taking data from Dynamics ERP and CRM solutions and designing dashboards.

We have pre-developed dozens of proprietary industry and department dashboards.
